HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. B. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense We have come to the conclusion to use this new invention ourselves and recommend its use in all cases We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO MAY 1.

WASHINGTON, April 30.—Dr. Brinks, special bearer of dispatches from Mexico, arrived yesterday and had an interview with the President today. All the members of the Cabinet except Cresswell were present.

The Attorney General has decided that Collectors of Customs are entitled, since June, 1866, to retain $2,000 a year out of the moneys received from importers for storage on goods in private bonded warehouse, and has disavowed the claim of naval officers and surveyors to this compensation, unless when performing duty as Collectors

Gen. Joseph F. Boyd, of Kentucky, Samuel G. Fellows, of Pennsylvania, Edward F. Preston, of Iowa, and H. Walbridge, of New York, have accepted the appointment as Commissioners to inquire into the condition of the Pacific Railroad.

WASHINGTON, April 30.—J. Hubby Ashton has resigned the office of Assistant Attorney General to which he was appointed by Evarts. Walbridge A. Field, of Boston, is appointed his successor.

WASHINGTON, May 1.—Senator Sumner opposes the nomination of Sickles to Spain, but it is understood that the President has decided to make it. Carlisle is likely to be nominated to Sweden, and Blow, for Brazil, though there are several candidates for the latter mission.

It is understood that the President has concluded that Motley had better go to England at once, instead of waiting to hear from the British Government respecting the rejection of the *Alabama* treaty. The Cabinet to day considered the subject of his instructions.

Indian Claims

There are a number of affidavits on file in the Indian Bureau from the Creeks and Seminoles who served in the Indian brigade, declaring that they have never been paid. The claim agent is in collusion with the Indian traders, who were in the habit of buying up individual claims, paying in goods, of which six per cent was paid to the agent, and $15 charged for collection The profits or fees alone amounted to nearly $100,000. The Indian Bureau and Interior Department under the late Chiefs appear to have systematically suppressed all complaints and evidence.

Proposed Cession of Mexican States

The *Times'* special says that special dispatches from Mexico were considered in the Cabinet yesterday. They contain a proposition to concede a portion of the territory of Mexico to the United States, for a certain sum not exactly known outside of official circles, but believed to exceed three million. The territory supposed to be ceded comprises the States of Sonora and Sinalo, and the eastern part of the Gulf of California. The proposition comes in the form of a protocol for a treaty. It is negotiated principally by Senator Romero and is made with a view of filling the coffers of the depleted Mexican treasury. It is understood that the Administration has decided nothing.

New York Railroads.

NEW YORK, April 30.—A consolidation of the Central and Hudson River Railroads is contemplated, on the basis of a capital of $1,000,000. It is said Vanderbilt believes the consolidation will bring ten per cent. It is also said the Harlem company is to be consolidated with the Burlington and Rutland Railroads. Their joint capital is reported to be $25,000,000, which leaves room for a large dividend on the consolidated capital. The Lake Shore combination, including the Michigan Southern, stands at $33,000,000, and will probably be increased to $50,000,000.

Internal Revenue Matters.

The Commissioner of Internal Revenue has sustained the action of Assessor Webster in taxing the capital and deposits of brokers.

Mexico.

It is understood that the dispatches from Mexico relate to the negotiations Rosecrans has had with the Mexican Government respecting treaties for the cession of certain portions of Mexico to the United States, in order to raise funds for the Juarez Government. It appears that Rosecrans wants to remain to remain to complete these negotiations, but his successor is already on his way out.

Another Libel Suit.

PHILADELPHIA, April 30.—J. Russell Young has commenced suit against Forney and the Evening *Bulletin* for publishing the alleged libellous articles from the New York *Sun*. His damages are laid at $100,000 in each suit.

Pennsylvania Railroads.

READING, Pa., April 30.—At a meeting of the stockholders at Eastern Philadelphia, the Railroad directors were authorized to declare a stock dividend of one hundred per cent, clear of all taxes, payable to the stockholders on the 12th of May; also to lease the road for 999 years to the Philadelphia and Reading Railroad Company. The Reading road will enter into the possession of the Eastern Philadelphia road to morrow.

NEW YORK, April 30.—Dr. Blanch, the physician charged with causing the death of the girl Ellen Carlock, was found with his throat cut and four wounds in his wrists and a long gash across his stomach, all made with a razor. None of them are of a serious nature.

The Fullerton case will be tried on the 7th of June.

Locomotives for California.

POUGHKEEPSIE, April 30.—Two locomotives passed here to-night *en route* for California. They will be the first to pass over the entire length of the Pacific railroad. Eight more locomotives leave Schenectady for California, May 10th.

Preparing for the Great Eclipse.

WASHINGTON, May 1.—The Navy Department is making preparations for taking observations of the eclipse of the sun in August next, and has directed the commander of the Atlantic squadron to meet Prof. Coffin, superintendent of the *Nautical Almanac*, at Yokohama, on July 1st, from which point he will sail to Siberia. Prof Coffin decides to select either Ochotsk, Siberia or Renjinska, in Siberia, or Norton Sound, Alaska, as the most favorable position. A bill appropriates $5,000 for this purpose in the Navy appropriations.

Pacific Railroad Matters

The *Intelligencer* contains a five column official report of Chauncey H. Snow, formerly Commissioner of the Union Pacific Railroad, which is a severe attack upon the construction of the road and its malignED officials. The latter are pronounced wholly incompetent. Superintendent Snyder is accused of corruption and manipulation of the freight for his private advantage. Snow claims that only 200 miles are properly built. The rolling stock is insufficient and worn out from Rawling's to Wasatch. The track is laid on frozen spil and not ballasted. He charges the regular Commissioner with having appraised a worthless road through Echo canyon, over which they passed in the night time. The report is pronounced malicious and untrue by the editor of an evening paper who has recently passed over the road.

Miscellaneous.

GALVESTON, April 30.—An attempt was made by armed men to break up the quarterly meeting of the Colored Methodists at Columbia, but was promptly suppressed by the citizens, who protected the congregation.

The Republican Convention is called to meet at Houston on the fourth Monday in May, to nominate, if possible, the two wings of that party, and nominate State officers.

ST. LOUIS, April 30.—The Supreme Court has refused a writ of habeas corpus applied for by Capt. W B Donald, who is in jail for killing a negro last summer.

A committee of officers of the Merchants' Exchange and prominent merchants, has been appointed to visit New Orleans in the interest of the Gorham movement by the river route.

ELLSWORTH, Kansas, April 30.—Extensive stock yards are being erected for the accommodation of the Texas cattle trade, this being the eastern point at which cattle can, under the law, enter the State. A large business is anticipated.

PHILADELPHIA, April 30.—An immense and very enthusiastic meeting was held to-night at the Academy of Music to sympathize with the struggling Cubans.

NEW YORK, April 30.—A section of the bridge over the Erie canal, at Salina street, fell through under the weight of a fire engine The engine was completely wrecked, and three persons injured.

PORTLAND, Me., April 30.—The steamship *St. George*, hence on the 28th for Glasgow, went ashore on Blonde's Rock, Seal Island, off Nova Scotia, on the 29th No particulars have been received.

OTTAWA, April 30.—Senator Fesserden was present in the House of Commons during the debate on reciprocity last night

The Nova Scotia Legislature opened yesterday.

CINCINNATI, April 30.—In the United States District Court of Kentucky, Judge Ballard rendered a judgment against A W Darring, of Carrolton, Kentucky, for $200,000, in favor of the United States, being the amount of tax the Government was defrauded out of on whisky

NEWARK, April 30.—During the afternoon session of the National Sunday School Convention the subject discussed was, "How shall we increase the spiritual and religious efficacy of our Sunday Schools" The Committee on Resolutions reported favorably to the formation of a Normal school and classes, encouraging organizations of State and County institutions and denouncing intemperance.

CHATHAM, N. Y., April 30.—The Western railroad freight house here was totally destroyed by fire to-day, with a large amount of freight. The fire is supposed to be the work of an incendiary. The loss is probably $1,000,000.

NEW YORK, April 30.—Rufus Nash, one of the counterfeiters who escaped from jail at Albany, has been recaptured.

A fire in Park Place damaged the stock of the Gilmore Starch Company to the extent of about $10,000.

CINCINNATI, April 30.—At Montgomery, twelve miles from here, Alonzo Muller, while at dinner with his family, was shot and killed by Abraham Crest, his brother in-law, with a double-barrelled shot gun. Crest alleges that Muller seduced his (Crest's) unmarried sister.

CHICAGO, May 1.—A *Tribune's* special says it is understood that Mr. Grinnell has notified Secretary Boutwell of his intention to resign the New York collectorship, finding the duties too onerous.

Cuban Affairs.

The Spanish Government has never notified this Government of the existence of any revolution in Cuba, consequently negotiations with Great Britain regarding the seizure of the *Mary Lowell* are carried on as if no changes had occurred. The Spanish Minister here has been instructed to ignore the insurrection, referring to the revolution as a series of riots.

The Secretary of the Navy has received a letter from a gentleman in Havana, which says if the United States does not interfere, and allows the Spanish authorities to deal with the insurgents in their own way, the rebellion will be speedily suppressed. On the other hand the insurgents will succeed if the United States interpose, and put a stop to the cruelties of the Spaniards. The Government has information that the agents of the insurgents have a large quantity of munitions of all kinds, which they, or anybody else, can have by paying for them.

BY ATLANTIC CABLE

MADRID, April 30.—The majority in the Cortes urge the prompt choice either of Montpensier or the Prince of Austria, or the declaration of a republic. The Republicans are about to start a national petition for a republic.

The Cortes proposed an amendment to the Constitution recognizing the Catholic as the only religion of the country. The amendment was rejected.

BERLIN, April 30.—The International Conference to promote the care of the wounded in time of war, which has been in session in this city for several days, adopted an address to the people of the United States, in which document the members of the Conference express regret that no representatives from the United States have been present during the proceedings, but they say, "We are convinced that the great and noble nation, one of the foremost of the world, which has rendered such great service in the work of humanity, sympathizes deeply with the move." The address is signed by forty delegates, among them the Turkish Embassador to Prussia. The Conference has ordered copies of the report of its sittings to be sent to America with the address.

NEW YORK, May 2.—European papers just received say there is great fear of another outbreak in Italy under Mazzini. Garribaldi is plotting a fresh attack on Rome. An outbreak or troubles between France and Prussia is considered the proper time to move. The same special says that a feeling is growing out of the late reported outrages by Spanish vessels which will ultimately compel the United States and England to call Spain to account.

The Haytien Annexation Proposition.

Late numbers of the *Moniteur*, the official organ of the Haytien Republic, contain some strange disclosures on the subject of annexation to the United States. It appears that the text of the following decree, passed by the Council of State of the Provisional Government formed by the Southern insurgents, sitting at Aux Cayes, fell into the hands of President Salnave:

Liberty—Equality. Southern State of Hayti, Council of State.

In view of the extraordinary events which have thrown the country into a state of utter confusion, and of the unparalleled acts committed by President Salnave, whom the country had selected as its chief, the Council of State, now assembled, resolves as follows:

Seeing that by the notification made by the Government, under date of the 7th of October last, to foreign powers, the State of the South was legally constituted, and that nine months of incessant struggles for liberty render it a solemn duty for this Government to employ every possible means of sustaining itself and saving society from imminent peril;

In the name of the people of which it is the representative; in the name of humanity and the public safety, it is decreed:

Article 1. The State of the South solemnly proclaims that it places itself under the protection of the United States of America as its natural ally.

Art. 2. Until the above named power shall have transmitted its acceptances, its Consuls are solicited to take proper measures to put a stop to the depredations of General Salnave, and to protect the interests of their nationality.

Art. 3. The State of the South promises and engages itself to employ its good offices with the Government of the North and Artibonite to induce them to place under the protectorate the other parts of the territory occupied by the revolution.

Art. 4. The present decree shall be promptly carried out by the executive power.

Made at the National House of the Council of State, at Aux Cayes, 15th January, 1869, in the sixty-sixth year of Independence. Dupuy, Jr., Vice President; T. Chalvire, M. Armoux, Secretaries; Manuel J. Zele, L. Vanal, R. V. Fleuriot, Sereille, Lageory, Members.

The President of the Southern States orders that the present decree be duly sealed with the State seal, and executed with all diligence by the Secretaries of the State. DOMINGUE.

In publishing this decree the *Moniteur* expresses astonishment and indignation that the men who had been accusing him of alienating Cape St. Nicholas, and of having contracted engagements with the American Government, looking eventually to the annexation of Hayti to the United States, should have taken such a step as the above decree reveals; but it adds:

The American Government, which lives in good relations of amity with the Government of the Republic, properly informed upon the real sentiments of our nation, will repel with scorn this culpable overture.

The *Moniteur* insinuates that similar overtures have been made to the Governments of France and England, but no positive proof of this has yet been obtained.
